Uploaded 26 videos on different topics.

## PROFESSIONAL SUMMARY

Dynamic full stack web developer proficient in MERN stack with expertise in Node.js, Express.js, React.js, and MongoDB. Collaborative team player with a strong understanding of RESTful API design and development. Strong problem-solving abilities and a passion for continuous learning in the ever-evolving field of web development.

## PROJECTS

### 1. Frank and Oak (E-commerce Fully Functional)

JavaScript | CSS3 | HTML5 | Responsive Web Design | Git |  
RESTful APIs | Bootstarp

- Developed a fully functional and responsive e-commerce website using JavaScript, CSS3, and HTML5
- Utilized RESTful APIs to retrieve and display data from the backend
- Implemented card creation and sorting functions for price, price range, and size
- Integrated a cart system with features such as increasing/decreasing quantity and removing items
- Contributed to the development of the admin panel and performed CRUD operations on the JSON server

### 2. Algorithm Mystique-23 (Ecommerce)

JavaScript | Git | HTML5 | CSS3 | JSON | Bootstrap

- Collaborated in a team to develop an e-commerce website using JavaScript, HTML5, and CSS3
- Implemented search and sorting functionalities to enhance user experience
- Worked on sign-in functionality and loading optimization
- Contributed to the UI design and functionality of the website
- Utilized Git for version control and collaborative development

### 3. LensLoom

HTML5 | CSS3 | Bootstrap | Git

- Worked on a team project to clone a website using HTML5, CSS3, and Bootstrap
- Focused on developing the UI and ensuring visual similarity to the original website
- Utilized Git for version control and collaborative development
